

MEETINGS 4

14 JUN 1967

MEMORANDUM NO.: 6782

MEMORANDUM FOR:

25X1A

SUBJECT : Conferences on Aircraft Production and Land
Armaments -- 1967

REFERENCE : 25X1A

Dear Bob:

25X1C

I was glad to get [redacted] views on the two conferences in question. I agree that a Land Armaments Conference is not justified again this year. I also agree that an Aircraft Production Conference would be important and useful.

A number of fighter and bomber programs are in transition with older models being replaced by new aircraft entering production. Since the last conference, several new aircraft have been detected and it is expected that they, and probably others, will be displayed during July in an Aviation Day Show. A detailed discussion of their production prospects would be most desirable.

25X1C

As you know, USIB agreed on 2 May that in the future it will approve the scheduling of all such conferences individually, on recommendation of the sponsoring agency. Please convey my thanks to [redacted] for his comments and pass these along to him as unofficial but our best judgment at this time.

WILLIAM W. MORELL, JR.
